Education

Bachelor of Technology in Computer Science Engineering

Lovely Professional University, Phagwara, Punjab

Aug 2023 – Present

CGPA: 7.8

Experience

Full Stack Developer Intern

Feb 2025 – Present

Wide Take

Remote

- Developed responsive marketing agency website using **React.js** and **Tailwind CSS** with smooth animations, achieving **95+ PageSpeed score** and improved user engagement.
- Implemented **SEO optimization** techniques resulting in **40% faster load times** and enhanced search visibility for better conversion rates.
- Collaborated with cross-functional teams using **modern development practices**, delivering pixel-perfect designs within project deadlines.

Freelance Frontend Developer

Feb 2025 – Present

Self-Employed

Remote

- Built full-stack applications using **MERN stack** with responsive design, optimizing database performance by **35%** for improved user experience.
- Delivered **5+ client projects** implementing secure authentication, payment gateways, and real-time features within tight deadlines.
- Maintained clean, scalable code architecture following **industry best practices** for security and performance optimization.

Projects

Medicare-AI - AI Healthcare Platform | *Next.js, MongoDB, Gemini AI, Stripe*

- Built AI-powered healthcare platform with **symptom diagnosis**, **prescription generation**, and real doctors and hospitals matching using **Gemini AI** and medical APIs.
- Implemented secure payment system with **Stripe integration** and real-time video chat, serving **500+ users** with 99% uptime.
- Achieved **Top 10 finalist** position in CodeClash 2.0 among 20K+ teams, presented at Google Gurugram final round.

Resume-AI - AI Resume Analyzer | *NextJS, Gemini API, Python, Clerk, PostgreSQL*

- Developed AI-powered resume analyzer with **smart content suggestions** using Gemini API and Python.
- Integrated **Clerk authentication** and PostgreSQL database, enabling users to create and customize resumes with **real-time preview**.
- Implemented PDF export functionality and responsive design, achieving **1000+ resume generations** with positive user feedback.

Converge-X - 2D Virtual Meeting Platform | *Next.js, TypeScript, Mediasoup, Phaser 3, PostgreSQL*

- Built immersive 2D meeting platform with **avatar-based interactions** and virtual spaces using Phaser 3.70+ and custom WebSocket signaling.
- Implemented **real-time video/audio streaming** with Mediasoup media server and spatial audio using Web Audio API for enhanced user experience.
- Developed scalable backend with **PostgreSQL**, **Redis clustering**, and Bull Queue, supporting multiple concurrent virtual meeting rooms.

Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C++, C

Frontend Technologies: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, Framer Motion

Backend Technologies: Node.js, Express.js, RESTful APIs, Django, WebSockets, Socket.io

Database & Tools: MongoDB, PostgreSQL, MySQL, Git, GitHub, Postman

Cloud & Deployment: Vercel, Netlify, Cloudinary, Docker

Core Concepts: Data Structures & Algorithms, OOP, DBMS

Achievements

CodeClash 2.0 Finalist (2025): Top 10 among 20K+ teams for AI healthcare platform, presented at Google Gurugram final round.

Trinetra Web Hackathon Finalist (2024): Top 10 recognition for AI-powered mental health chatbot.

Open Source Contributor: Active contributor to React.js and Node.js communities with 621+ GitHub contributions last year.
